and murders 1.2 percent. There were an estimated 8,277,829 property crimes (burglaries, larceny-thefts, and motor vehicle thefts) reported by law enforcement. Financial losses suffered by victims of these crimes were calculated at approximately \$14.3 billion.

Larceny-theft accounted for 70.8 percent of all property crimes reported, burglary for 20.9 percent, and motor vehicle theft for 8.3 percent

Police made an estimated 11,205,833 arrests during 2014—498,666 for violent crimes, and 1,553,980 for property crimes. More than 73 percent of those arrested during 2014 were male.

The highest number of arrests was for drug abuse violations (1,561,231), followed by larceny-theft (1,238,190) and driving under the influence (1,117,852).

What's new this year? For one, the 2014 publication includes the inaugural Federal Crime Data report, which contains traditional UCR data from a handful of federal agencies, as well as FBI arrest data on human trafficking, hate crimes, and criminal computer intrusions.

Also included for the first time in Crime in the United States is UCR's second report of human trafficking data submitted by state and local law enforcement.

It is expected that law en-

forcement participation in data collection for both reports will expand over time, which will help provide a more complete picture of those crimes.

Message from FBI Director. Included in the report is a message from Director James Comey, who said that UCR plans to begin collecting data about non-fatal shootings between law enforcement and civilians, and he encouraged all law enforcement agencies to submit their data about fatal shootings and justifiable homicide data, which is currently collected. Once the FBI begins collecting the expanded data, UCR plans to add a special publication that will focus on law enforcement's use of force in shooting incidents. That report will outline facts about what happened, who was involved, whether there were injuries or deaths, and the circumstances surrounding the

incidents.

Explains Comey, "We hope this information will become part of a balanced dialogue in communities and in the media—a dialogue that will help to dispel misperceptions, foster accountability, and promote transparency in how law enforcement personnel relate to the communities they serve."

In his message, Comey also encourages law enforcement agencies to participate in UCR's National Incident-Based Re-

porting System (NIBRS), created to improve the quantity and quality of crime data collected by law enforcement by capturing more detailed information on each single crime occurrence.

Recently, the International Association of Chiefs of Police—with the Major Cities Chiefs Association, National Sheriffs' Association, and the Major County Sheriffs' Association—released a joint posi-

We are beginning our 31st year of providing toys to the needy children of Loudon County, and thanks to generous contributions of time, money and gifts, we are able to make Christmas a more joyful time for more and more children. In 2014, approximately 500 children were helped by the Loudon County Sheriff's Department Toys for Tots program through their partners. Even with the difficult economic times we are experiencing, we hope that the people of Loudon County will be there

once again to help. Beginning Tuesday, September 8, the 2015 applications will be available at the Loudon County Sheriffs Office. Applications will be accepted for children from Age 1 through 8th grade that are enrolled in the Loudon County or Lenoir City School systems.
