seems to make the road smoother and straighter. Pile up the accomplishments and remember this feeling for later.

Aries

(Mar 21-Apr 20)

Hang on tight to that idea. It's good, so don't let anyone else tell you differently. It's just its time hasn't quite arrived -- yet. Keep refining it and don't worry about a timeline. Soon the world will be ready.

Taurus

(Apr 21-May 20)

Your life's worth has absolutely nothing to do with your bank balance or your mortgage, although it's easy to lose sight of that every now and then. It's time to remind yourself of what you have that's truly valuable.

Gemini

(May 21-June 21)

Far from your usual multitasking self, you're sticking with one duty all the way down the line. Good for you! Getting this out of the way (and not to mention under your belt) will give you a solid foundation to build on.

Cancer

(Jun 22-Jul 22)

When you push too hard to make something happen, it never turns out exactly the way you think it would. Why not let go of your expectations and let this situation evolve

more organically? You'll be happier.

Leo

(Jul 23-Aug 23)

Unlikely suggestions prove to have the most potential for really changing the situation. You're most receptive to the unusual later in the day -- and the more tangential the conversation, the more likely it'll be useful.

Virgo

(Aug 24-Sep 23)

When you learn to serve your higher purpose, your outward success will manifest itself. And achievement under those kinds of circumstances is the best and most lasting kind. Keep reaching for your inner truth.

Libra

(Sept 24-Oct 23)

It's time for a new point of view, especially when it comes to your physical self. A new haircut, a scarf in an uncharacteristic color, a new exercise routine: Do whatever it takes to appreciate your own beauty.

Scorpio

(Oct 24-Nov 22)

Loyalty is always a big concern with you. You know exactly what you'd do for a loved one, but suddenly you're not sure about their agenda. Hmm. Could it be that you're making a mountain out of a molehill?

Sagittarius

(Nov 23-Dec 21)

The stars empha-

size good food, good conversation and excellent company right now. Call someone up that you haven't seen in a while and make plans. You'll learn more about each other than you thought possible.

Capricorn

(Dec 22-Jan 20)

Worry tends to breed more worry, but taking action always helps clear the mind. You don't necessarily have to tackle the problem at hand, either. Taking a walk or talking with a friend are also

helpful.

Aquarius

(Jan 21-Feb 19)

You? Making an argument for the tried-and-true? What the heck is going on? You're on the up-and-up. After all, there's nothing more innovative than embracing tradition, especially when it works.
