### Horoscopes: Aries

(Mar 21-Apr 20)

One of the reasons you're on a roll at work is that you can keep up the momentum (see Horoscopes pg. 2)

## Horoscopes

Just when the rest of your team's spirits are flagging. And that's not even taking into account how much you love coming up with new ideas.

### Taurus

(Apr 21-May 20)

A special person's behind-the-scenes support is just what it takes to propel you into your rightful spot in the public eye. Once you take this next step, you'll see how many other possibilities could open up for you.

### Gemini

(May 21-June 21)

You can't move on until you get a few roadblocks out of the way. These obstacles aren't tangible, but mental. So while they might be harder to remove, once you do, you can go anywhere your heart desires.

### Cancer

(Jun 22-Jul 22)

Your normally go-it-alone self is hankering for some company, and your friends couldn't be more delighted. It's been too long since they've seen you. Go ahead and get your crowd together. The more, the merrier.

### Leo

(Jul 23-Aug 23)

Patience isn't necessarily your strong suit, but you'd be well advised to exercise as much of it as possible, especially when it comes to a blocked romantic situation. Forcing a solution could make things worse.

### Virgo

(Aug 24-Sep 23)

New ideas put the spring back in your step. This inspiration also helps lift an old burden off your shoulders. The results of your experiment are so stellar you should consider trying this unique approach.

### Libra

(Sept 24-Oct 23)

Are you wrestling with a difficult situation? Before the tension leaks over into other areas of your life, be open to the possibility that someone else might have a lot of input into this issue. Ask for advice.

### Scorpio

(Oct 24-Nov 22)

Whether you realize it or not, you just passed a major milestone. Are you surprised that it was much easier than you thought? Your long-cherished goal is clearly in sight thanks to all of these recent experiences.

### Sagittarius

(Nov 23-Dec 21)

An intellectual skirmish with a surprising partner gives you new a new appreciation for a particular person. Keep this spirit of discovery alive. Learn to regularly embrace what's different about each other.

### Capricorn

(Dec 22-Jan 20)

Keep a flexible attitude no matter how much you want to tell a certain person that their idea is nuttier than a can of Planter's. If you really

listen, you might just see the value in this off-the-wall concept.

### Aquarius

(Jan 21-Feb 19)

It's tempting to cross a line even (especially) when it's been expressly forbidden, but take another look at your actions. Yes, sometimes rules need to be broken. Other times, it's just a way to act out. Which is it now?

### Pisces

(Feb 20-Mar 20)

The universe sends unexpected inspiration your way. An off-the-cuff comment

from a casual friend could send a flash of lightning right to your heart. Suddenly, an old puzzle makes perfect sense.
