## Horoscopes

you an offer you can't refuse -- it's just that good. Don't be quick to assume that it's too amazing to be true or that you can't live up to it. Consider it well-deserved karma coming your way.

### Gemini

(May 21-June 21)

Words are more important than deeds right now, especially when you're discussing the future. Go ahead and build castles in the air. After all, that type of real estate is easy on the wallet -- and easy to redecorate.

### Cancer

(Jun 22-Jul 22)

You know how goldfish can grow infinitely large if taken out of a bowl and put in a lake? Think of your life as a goldfish. What setting can you put yourself in so you allow yourself to grow to your full capabilities?

### Leo

(Jul 23-Aug 23)

You have a mad urge to go surfing. Or you call your college roommate and remind her about that freshman year plan you made to meet in Paris -- for lunch. It's the kind of day where madcap adventure is the name of the game.

### Virgo

(Aug 24-Sep 23)

Toss around a few ideas. Engage in verbal sparring. The stars say intellectual connections are fast and furious, and they're meant to be enjoyed. Don't try to make anything permanent out of them; enjoy them for what

they are.

### Libra

(Sept 24-Oct 23)

Even love needs regular maintenance -- it's the emotional equivalent of eating your vegetables. So get that talk out of the way, pay the bills -- whatever's necessary. Once you do, you're clear to enjoy the sweet stuff.

### Scorpio

(Oct 24-Nov 22)

Normally you're impervious to someone else's crabby mood, but a few passing comments from a friend get under your skin. This surprises you. It might be a sign that you need to take your emotional temperature more often.

### Sagittarius

(Nov 23-Dec 21)

What works for everyone else isn't going to work for you. This is great news! You always suspected you were special, and now you know it for a fact. Advice from others hinders more than it helps right now.

### Capricorn

(Dec 22-Jan 20)

Fancy creams and ridiculous diets don't keep a person young: curiosity does. So go ahead and explore, initiate and ask questions. The more information you seek, the more you'll gather. Use your resources.

### Aquarius

(Jan 21-Feb 19)

A loved one and you aren't on the same page. They understand what you're doing, but their response isn't as enthusiastic as you'd have liked. Don't automatically read that as disap-

proval. Go about your business.

### Pisces

(Feb 20-Mar 20)

Today's astrological energies make it a perfect time to get out there and mix it up. While it takes two to tango, you're more in the mood for a country line dance. The bigger the crowd, the more fun you'll have.

### Aries

(Mar 21-Apr 20)

Matters of appearance and upkeep take on a spiritual cast. Now, we all know that you can't judge a book by its cover, but sometimes tak-

ing great care of the wrapping indicates that you know the insides are worth it.
