investigating crimes involving exploitation of minors and child pornography.

The Knoxville Police Department is the regional task force agency for Tennessee and the Loudon

County Sheriff's Office has become an affiliate of the regional ICAC office.

A grant has been submitted to the Knoxville Police Department to fund the equipment and personnel hours neces-

sary to facilitate the organization of the new satellite office. Out of this office investigators will work with other agencies to capture online predators.

"Twenty-one percent of the population of Loudon County is under the age of eighteen. Most youth have

access to computers and one in seven children ages ten to seventeen have received a sexual solicitation or approach over the internet. These numbers show that we as a law enforcement agency and community as a whole must

do something to protect our youth," said Investigator Smith

Sheriff Tim Guidner has recognized a need in our community and is using the resources available from federal and local agencies to ensure to safety of our most vulnerable of victims, our children.

## Summer Produce Tips

Enjoying summer produce starts with knowing what to buy and when. Follow these tips to help select the freshest fruits

and vegetables this season.

For melons, cantaloupe should have pronounced netting on the rind and a few tiny cracks at the stem and should smell sweet. Smell is also a good measure for honeydew and watermelon. Peaches should be slightly soft to the touch and yellow or cream-colored. For berries, choose plump, firm ones with a bright color.

For vegetables, look for corn that has green husks and silks free of decay and tomatoes that are smooth and firm but not hard. Bell peppers should be firm, bright and have smooth skin.

Look for locally grown, in-season produce for enhanced flavor and nutrient levels.
