month's meeting agenda, the TWRC passed a proclamation that opened privately owned farm ponds to commercial snapping turtle harvest. Commercial fishermen will be required to obtain written permission from the pond owner as well as a Tennessee Commercial Fishing License and Commercial Turtle Permit before they can harvest turtles from private ponds.

The commercial fishermen will only be allowed to harvest common snapping turtles. Turtle traps will be the only legal gear type for commercial fishermen on a private pond. All other statewide regulations and reporting requirements will apply for turtle harvest from private ponds.

The commission also passed an amendment to the sport fishing proclamation that changed the smallmouth bass regulations on Boone and Watauga reservoirs. Currently, the minimum size limit for smallmouth bass from these reservoirs is 18 inches in length. This amendment reduced the smallmouth bass size limit to 15 inches on Boone and Watauga reservoirs only.

Both of these regulations will become effective 30 days after filing with the Tennessee Secretary of State office.

Don King, TWRA Chief of the Informa-

tion and Education Division, presented information regarding a proposed weekly television show partnership between the TWRA, the Renaissance Center in Dickson and the Tennessee Wildlife Resources Foundation.
