Murder men.

The filing of the murder warrant follows an investigation into the discovery by law enforcement of human remains lying under a number of rocks at the bottom of an embankment in the woods not far from Lindsay's residence. An individual who had been living with Lindsay contacted a Morgan County Sheriff's Deputy earlier today (Wednesday, April 10th) to inform law enforcement that Lindsay had told this person about the murder

while he was staying with Lindsay recently.

Prosecutors Bob Edwards and Jonathan Edwards from the District Attorney General's assisted in the investigation and supervised the issuance of a search warrant of the premises where the remains were to be found. Sheriff Potter and his investigators were led to the location of the remains by the informant and discovered the skeletal remains as earlier described. District Attorney General Russell Johnson contacted the Regional Fo-

rensics Center to send an anthropology team of forensic specialist to the scene to examine and exhume the remains believed to be by John Hammond.

Sheriff's investigators Gary Seiber and William Angel, assisted by a Tennessee Bureau of Investigation Agent, picked up Lindsay on an attachment for arrest on another case and interviewed him about the remains. Lindsay confessed to the killing of Hammond. The arrest warrant narrative contains the above facts and additional ones and, once filed and issued, is of public record for the media's use. Morgan County General Sessions Judge Mike Davis will set the bond. As men-

tioned previously, Lindsay is already in custody on an attachment from another case.

An autopsy will be conducted to determine the exact cause of death and to make a positive identification of what is believed to be John Hammond based on the informant's statement and the statement of Wayne C. Lindsay. Family

members of Hammond have already been contacted by the Sheriff's Office. As far as our office and Sheriff Potter can tell, no one had made a missing person report for John Hammond even though he was killed in November of 2018.

The above information is intended to address as thoroughly as possible all media inquiries

Councilman Brewster requested a review of Tennessee Code Annotated 39-17-307 to determine its applicability to the mud on the roadway. We also determined that this particular statute is not applicable and the only way the company is in violation of state law is if debris obstructs the roadway or makes it impassable. I think the only way we could make this apply is by showing there is a safety hazard which could cause a

crash. Based upon the photos provided, it appears to be just muddy water. Thank you.
