**Missing Sheep Statue**

*Any infomation please call 865-936-0630*

My huge life sized fiberglass sheep statue was stolen out of my back yard of the Loudon Housing Authority neighborhood on Creekwood Circle the 4th or 5th of July. My house backs up to trees between me and the houses on Carding Machine Road. The sheep was right behind my house in my flower bed so it was not visible from the road..... limited amount of people knew it was back there but evidently someone around me had company who saw it and decided to steal it. I am on disability now and had made payments to have this garden

statue ...I finally got it on May 20th ..... so I did not get to enjoy it very long. I just want people to know if they see my Sheep or know who stole my Sheep..... That I would like her back and am willing to give a reward to someone if they will help.

**Booze**

Lenoir City Police Department is partnering with the Tennessee Highway Safety Office (THSO) for Booze It and Lose It from August 16th to September 3rd, surrounding. Booze It and Lose It is a statewide campaign to increase impaired-driving enforcement and reduce fatal crashes.

The Lenoir City Police Department will be conducting a sobriety check point on Friday August 23rd from 8pm to 10pm on Adesa Boulevard. The department will also be increasing enforcement during those dates focusing on impaired driving.

Increased state and national messaging about the dangers of drunk driving, coupled with increased sobriety check-points and high visibility enforcement, aim to drastically reduce the number of drunk-driving

crashes, injuries, and fatalities this year.

The consequences of a single DUI conviction for a first-time offender in the state of Tennessee may include costly fines, court costs, legal fees, jail time, mandatory drug and alcohol treatment, and/or the installation of an ignition interlock device in his/her vehicle.

The THSO provides grant funding to support the Lenoir City Police Department's increased enforcement efforts during the Booze It and Lose It holiday campaign. For more information about the THSO, please visit [www.tntrafficsafety.org](http://www.tntrafficsafety.org)

War lo-launched, liquid propelled Intercontinental Ballistic Missile, or ICBM that carried a nuclear warhead; when launch it was specifically designed to fly to another continent. This rocket was stored in a hardened underground silo and was ready to launch at all times by military personnel also located in those underground silos. The rocket was developed at a time referred to as the "Cold War" between the United States and the former Soviet Union from the 1940s to about 1991. These rockets were set to launch only through some very interrogate and precise launch procedures and only through a very short chain of command. Jim Roger's military service involved him in that process where his training was so vital to a launch that only a few military

Commanders were between him and the President of The United States. At a recent American Legion meeting of Post 256, Mr. Rogers gave his fellow Legionnaires very explicate and detailed history of the method and procedures to launch a missile with a nuclear warhead. Veterans are invited to join Post 256 for more of these types of informative briefings, additional information about the American Legion visit the Post 256 website: [www.tellicolakepost256.org](http://www.tellicolakepost256.org).
