FBI Helps Recover Nearly 200 Bodies from Colorado Funeral Home

Lazaro Benitez

(see Stop pg. 3)

The FBI recently helped remove at least 189 dead bodies from the Return to Nature Funeral Home in Penrose, Colorado.

The Fremont County Sheriff's Office responded to reports of a foul odor coming from the funeral home. They received a state warrant to search the premises, where they discovered improperly stored bodies. Fre-

mont County Sheriff Allen Cooper asked the FBI and the Colorado Bureau of Investigation for assistance due to the magnitude of the situation, which he later described as "horrific."

The FBI Laboratory Division's FBI Disaster Victim Identification Squad and Evidence Response Team Unit deployed to help the FBI Denver Evidence Response team and Hazardous Evidence

Response Team. The teams worked long hours alongside the Fremont County Sheriff's Office, coroner's office, and other local partners to survey the scene and assess needs.

Reckless

Joseph Low, 60, Howard School Road Maryville, was charged with, DUI, Violation of Implied Consent, and Speeding.

Deputy Jackson LCSO, was dispatched to the intersection of Highway 411 S and Highway 95, on a reckless driver call. Loudon County Dispatch advised that the vehicle was a black Jeep bearing TN Tag BMY6755 and that the

complainant witnessed it driving all over the road, and nearly striking the complainant's vehicle on 3 occasions. Deputy observed the Jeep drive through the intersection and was able to catch up to it. When the deputy got behind it, the driver immediately applied the brakes, however, the deputy paced it at 58 MPH in a 50 MPH zone. Deputy conducted a traffic stop on the vehicle, and it stopped abruptly, in front of 7544 High-

way 411 S. Deputy made contact with the driver/offender, Joseph Low, who appeared agitated and displayed signs of impairment including erratic behavior, was unable to sit still, and had very rapid speech, to where it was hard to understand him at times. Deputy requested him to exit the vehicle, and he initially refused until CPL. Wallen arrived on the scene, and he exited willingly. Deputy asked if he would submit to SFST and he agreed. Before conducting HGN, the deputy noted that Mr. Low's pupils were dilated, even under direct light. Deputy was unable to

properly conduct HGN because Mr. Low could not follow instructions and looked away from the stimulus on nearly every pass. During the Walk and Turn, Mr. Low started before being instructed, missed heel to toe, made an improper turn, and used his arms for balance. During the One Leg Stand, Mr. Low put his foot down, used his arms for balance, swayed, and hopped. Deputy placed Mr. Low into custody for DUI. Deputy read him TN Implied Consent, and he refused. He was transported to the Loudon County Detention Center.

FBI

of Investigation, and the FBI are currently conducting an investigation into the Return to Nature Funeral Home.

If you or someone you know has been affected, please view our Seeking Victim Information questionnaire for more information.

The FBI's Technical Hazards Response Unit also provided specialized support due to the serious biohazard conditions and other chemical hazards. Members of this team are specifically trained to work in treacherous or difficult-to-access crime scenes to ensure responders can safely gather evidence.

The tasks at hand included documenting the crime scene and transferring bodies to refrigerated trailers to prevent further degradation, all while ensuring the safety of personnel working in the toxic environment.

The governor of Colorado

declared a disaster emergency for a criminal investigation and hazardous materials incident, a declaration that authorized him to call up the Colorado National Guard. The Colorado Air National Guard's Fatality Search and Recovery Team deployed to the scene and worked alongside FBI Hazardous Evidence Response Team personnel when entering the building and recovering bodies.

In addition, trucks full of gear and personal protective equipment arrived at the scene from the FBI Denver Field Office and from the FBI Laboratory Operational Support Center in Dallas. Tents and a privacy fence were stood up across the site to shield the workers and the scene.

The conditions were challenging, both mentally and physically. Team members wearing Class A hazmat suits were in the building for no

longer than 40 minutes at a time. They also needed a full decontamination upon exiting. The teams worked 12-hour days, from 7 a.m. to 7 p.m. Personnel from the Bureau's Employee Assistance Program and chaplains were also available to provide emotional wellness support to all those working in the horrific conditions.

Mark Michalek, FBI Denver special agent in charge, said, "This is our commitment to our partners and our community: We will be with them for as long as it takes to ensure all hazards are mitigated, the conditions of the scene are fully documented, and all human remains are recovered in a dignified manner."

Once the remains were carefully removed from the funeral home and transported to the El Paso County Coroner's Office, the FBI helped the Fremont County Coroner

process and identify the deceased using techniques such as fingerprinting, DNA collection, and dental X-rays.

Information about how long the bodies had been left at the funeral home and the circumstances behind their improper storage is not available at this time.

No arrests have been made to date.

The FBI continues to focus on the investigation and providing victim support through its Victim Services Division (VSD). The division has specially trained personnel in each of the Bureau's 56 FBI field offices to ensure victims of crimes are supported in their aftermath. VSD is working with local partners to ensure trauma-informed notification, assess ongoing needs, and provide additional support, as required.
